

The Board of Directors' of Byggmax Group AB (publ), Corp. Reg. No. 556656-3531, proposal for resolution regarding incentive program, comprising a private placement and assignment of warrants

The Board of Directors proposes that the Annual General Meeting (AGM) resolves on a Long-Term Incentive program (LTI) as follows, including a private placement of warrants and the assignment of warrants.

Background and motive

The Board deems it important and in the interest of all shareholders that the employees of the Byggmax Group have a long-term interest in a favorable trend in the Company's share price. A warrant-based incentive program for the Byggmax Group's employees enables the reward of employees to be linked to the Company's future earnings and value trends. Long-term growth in value is thereby prioritized and the goals of shareholders and the employees concerned coincide. In addition, share-related incentive programs create a Group-wide focus for these employees and thus prioritize actions for the long-term. The incentive program is assessed as facilitating the recruitment and retention of key employees.

In considering the terms and conditions, the size of the allotment and other circumstances as follows, the Board deems the proposed incentive program reasonable and advantageous for Byggmax and its shareholders.

Allotment and general terms and conditions for warrants

A maximum issue of 828,000 warrants is proposed. The warrants are intended to be offered to employees at market rates in even lots of 2,000 warrants. Participants in the incentive program are divided into four categories, with the intent of offering each person in each category an allocation of warrants as follows:

Category	Maximum number of participants in each category	Maximum total allocation per participant (number of warrants)	Maximum total allocation (number of warrants)
President	1	300,000	300,000
Senior Executives	4	60,000	240,000
Key employees 1	2	24,000	48,000
Key employees 2	20	12,000	240,000
Total (maximum)	27	-	828,000

All warrants are to be issued free of any consideration to Byggmax AB (Corp. Reg. No. 556645-6215) (the Subsidiary), a wholly-owned subsidiary of Byggmax Group AB, to later, in turn, be assigned to the participants in the incentive program. In this connection, the price per warrant should therefore correspond to the warrant's market value estimated through application of the customary valuation model (the Black & Scholes model) based on the share price of the listed share and other market conditions prevailing on the date of assignment.

Each warrant entitles the holder, during the period May 30, 2017 through November 30, 2017, to subscribe for one (1) new share in Byggmax Group AB (publ) at an issue price amounting to 120% of the mean value of the volume-weighted-average of the share price for Byggmax shares during a specific measurement period.¹ The issue price arrived at through this calculation should be rounded off to the nearest whole ten öre (SEK 0.10), whereby 4 öre (SEK 0.04) should be rounded down and 5 öre (SEK 0.05) and above rounded up. The issue price is not permitted to be lower than the quotient value of the Company's shares.

The calculation of the market value and calculation of the issue price for subscription for new shares in the Company must be performed by an independent rating agency.

The subscription price and number of shares that each warrant entitles the holder to subscribe is recalculated in the event of a split, a reverse split, new share issues and other actions in accordance with customary conversion rules. Furthermore, in accordance with customary terms, warrants should be possible to exercise prematurely in the event of a compulsory redemption of shares, liquidation or merger whereby Byggmax Group AB is absorbed into another company.

A prerequisite for the allotment of warrants is that the participant signs a pre-emption agreement with the Subsidiary.

The detailed terms of the warrant issue are stated in Appendix A.

Costs, dilution effects and effects on relevant key ratios

Since the warrants are assigned to employees at the market price and on market terms the Board of Directors assesses that the incentive program will not give rise to any payroll expenses in the accounts or any corresponding costs in accordance with IFRS 2 or costs in the form of social security contributions.

The proposed incentive program comprises a maximum of 828,000 warrants that can be utilized for subscribing for a maximum of 828,000 shares, which corresponds to an increase in the number of shares outstanding and votes in Byggmax with a maximum of approximately 1.4%. The Company's share capital could increase by a maximum of SEK 296,000.00, with the reservation for the increase that could be occasioned by recalculation in accordance with the terms of the warrants.

Dilution and the costs of establishing and administering the incentive program are expected to have a marginal impact on the Byggmax Group's key ratios.

Preparation of the proposal

The proposal has been prepared by the Board of Directors as a whole and elaborated in consultation with major shareholders and external advisors. The proposal in its final version was adopted by the Board of Directors on April 9, 2013.

¹) The mean value of the share price is calculated as the volume-weighted-average for each trading day of the offer price for the Company's share on the NASDAQ OMX Stockholm during the period May 17, 2013 through May 30, 2013. If neither a price paid nor a bid price is quoted on a given day, that day is excluded from the calculation.

Majority requirement

A resolution in favor of the proposal requires the support of shareholders representing a minimum of nine tenths of the votes cast and nine tenths of the shares represented at the AGM.

Outstanding share-based incentive programs

The 2011 AGM of the Company adopted an incentive program comprised of a private placement and assignment of warrants to the President, senior executives and other key employees. The warrants were issued free of any consideration to the Subsidiary whereupon they were assigned in turn to the participants in the incentive program. The program comprises 565,000 warrants. Each warrant entitles the holder to subscribe for one new share in the Company during the period from April 16, 2014 through October 16, 2014 at a rate of SEK 63.90 per new share. The participants in the warrants program have signed a pre-emption clause.

The board does not intend to implement incentive programs on an annual basis.

Board of Directors, April 2013

The Board of Directors' of Byggmax Group AB (publ), Corp. Reg. No. 556656-3531, proposal for resolution regarding the issue of warrants

The Board of Directors proposes that the AGM resolves on a private placement of 828,000 warrants with the possible consequent increase in the Company's share capital of a maximum of SEK 279,000.00, with the reservation for the increase that could be occasioned by recalculation in accordance with the terms of the warrants subsequent to new share issues and other actions. The warrants carry the right to subscribe for new shares in the Company. The following terms apply:

1. The right to subscribe for warrants will only be assigned to Byggmax AB (Corp. Reg. No. 556645-6215).
2. Subscription of warrants should be performed on the subscription list not later than May 29, 2013. However, the Board of Directors retains the right to extend the subscription period.
3. All warrants are to be issued free of any consideration.
4. Byggmax AB should be entitled, at market terms, to in turn reassign the warrants that Byggmax AB has subscribed in accordance with this resolution to meet obligations arising from the Company's incentive program.
5. The following applies with regard to exercise of the warrants:
 - (a) Subscription for shares with the warrants can be performed during the period May 30, 2017 through November 30, 2017, taking into account, however, the terms stated in Point 6 below.
 - (b) Each warrant entitles the holder to subscribe for one (1) new share in the Company at a subscription price amounting to 120% of the mean value of the volume-weighted-average for each trading day of the price paid for the Company's share on the NASDAQ OMX Stockholm during the period May 17, 2013 through May 30, 2013. If neither a price paid nor a bid price is quoted on a given day, that day is excluded from the calculation. The subscription price arrived at through this calculation should be rounded off to the nearest whole ten öre (SEK 0.10), whereby 4 öre (SEK 0.04) should be rounded down and 5 öre (SEK 0.05) and above rounded up. The subscription price is not permitted to be lower than the quotient value of the Company's shares.
6. The complete terms and conditions for the warrant program are stated in Appendix B.

The Chairman of the Board, or the person he appoints in his stead, is authorized to perform minor amendments to this resolution that may prove necessary in conjunction with its registration.

The underlying reason for deviation from the shareholders' preferential rights is specified under the heading "Context and motive" above.

Appendix B

This is an English translation of the Swedish original. In the event of any discrepancy between this translation and the Swedish original, the Swedish original shall prevail.

**TERMS AND CONDITIONS FOR
BYGGMAX GROUP AB'S WARRANTS 2013/2017
ISSUED UNDER THE RESOLUTION PASSED ON
MAY 15, 2013**

1. DEFINITIONS

As used in these terms and conditions, the following terms shall have the meanings set forth below:

"Banking Day" a day, which is not a Sunday, or other public holiday in Sweden;

"Company" Byggmax Group AB (publ), corporate registration number 556656-3531;

"Market Listing" regards the listing of the Company's share on a stock exchange or authorized market in the European Economic Area (EEA);

"Holder" the holder of the Warrant;

"Warrant" the right to subscribe for shares in the Company against a consideration in accordance with these terms;

"Subscription" Subscription for new shares in the Company with Warrants as regulated by Chapter 14 of the Swedish Companies Act (2005:551);

"Subscription price" the price per share at which Subscription for new shares is executed; and

"Euroclear" Euroclear Sweden AB.

2. WARRANTS

The number of Warrants amounts to a maximum of 828,000.

The Warrants are to be registered by Euroclear in a control register according to the Swedish Financial Instruments Act (1998:1479) regarding the accounting of financial instruments.

3. SUBSCRIPTION PRICE OF NEW SHARES

For each Warrant, the Holder is entitled, from May 30, 2017 through November 30, 2017, or an earlier date in accordance with Point 7 below, to subscribe for one new share in the Company at an Subscription Price amounting to 120% of the mean value of the volume-weighted-average for each trading day of the price paid for the Company's share on the NASDAQ OMX Stockholm during the period May 17, 2013 through May 30, 2013. If neither a price paid nor a bid price is quoted on a given day, that day is excluded from the calculation. The Subscription Price arrived at through this calculation should be rounded off to

the nearest whole ten öre (SEK 0.10), whereby 4 öre (SEK 0.04) should be rounded down and 5 öre (SEK 0.05) and above rounded up. The Subscription Price is not permitted to be lower than the quotient value of the Company's shares.

Adjustment of the Subscription Price and of the number of new shares that each Warrant entitles the Holder to subscribe may take place under those circumstances set forth in Point 7 below. The Subscription Price is not permitted to be lower than the quotient value of the Company's shares. Subscription may only be made for the whole number of shares to which the total number of Warrants is entitled and that one and the same Holder wants to use at the same time.

Subscription is not permitted in the event of any dispute in respect of redemption in accordance with Chapter 22, section 26, paragraph 2 of the Swedish Companies Act (2005:551) until resolution of the dispute has been established by a judgment or court ruling entering into force. However, if the subscription period expires before or less than three months following the above, the Holder has the right to exercise the Warrant during the three-month period following the ruling entering force.

4. APPLICATION FOR SUBSCRIPTION

Application for Subscription is performed by the Holder submitting written notice to the Company, for forwarding to the record-keeping institute, of the Holder's intent to subscribe, including the number of shares the Holder wishes to subscribe for. Application for Subscription is binding and may not be revoked.

In the event application for Subscription is not made within the time set forth in Point 3, all rights pertaining to the Warrants expire.

When Subscription has been executed, new shares are recorded provisionally in the Holder's securities account and the Company's shareholders' register. Once registration has been performed with the Swedish Companies Registration Office, registration of the new shares in the shareholders' register and securities account becomes final.

5. PAYMENT

On application for Subscription, payment must be executed in full for the subscribed shares. Payment is to the account designated by the Company.

6. DIVIDENDS IN RESPECT OF NEW SHARES

New shares that are issued as a result of the Warrants being exercised are entitled to receive dividends on the first record date for dividends that occurs subsequent to the completion of the Subscription process.

7. ADJUSTMENT OF SUBSCRIPTION PRICE, ETC.

The following applies in respect of the rights vested in Holders in the circumstances listed below.

7.1 Bonus issue

In the event the Company carries out a bonus issue of shares, Subscription is effected – when an application for Subscription is made at such time that it cannot be effected on or before the tenth calendar day prior to the general

meeting of shareholders that resolves to carry out the share issue – after a resolution has been adopted by the shareholders' meeting in respect thereof. Shares which are issued as a result of Subscriptions effected after adoption of a resolution to carry out the share issue are recorded on an interim basis in the control account, which means that the Holders of such shares are not entitled to participate in the issue. Final registration on the control account takes place after the record date for the bonus issue.

In connection with Subscriptions that are effected after the adoption of a resolution to carry out a bonus issue, an adjusted Subscription Price and an adjusted number of shares to which each Warrant entitles the Holder to purchase is applied. The adjustments are made in accordance with the following formulas:

$$\text{Adjusted Subscription Price} = \frac{\text{Previous Subscription Price} \times \text{number of shares prior to the bonus issue}}{\text{Number of shares subsequent to the bonus issue}}$$

$$\text{Adjusted number of shares that each Warrant entitles the Holder to subscribe for} = \frac{\text{Previous number of shares that each Warrant entitles the Holder to subscribe for} \times \text{the number of shares after the bonus issue}}{\text{The number of shares prior to the bonus issue}}$$

Following the above adjustments, the Subscription Price and number of shares for which each Warrant entitles the Holder to subscribe is determined by the Company immediately after a general meeting passes a resolution on a bonus issue and is applied first after the record date for the bonus issue.

7.2 Consolidation or share split

In the event the Company executes a consolidation or a share split, Point 7.1 above applies correspondingly, whereupon the record date is deemed the day on which the consolidation or share split is effected at Euroclear at the Company's request.

7.3 New issue

In the event the Company carries out a new issue of shares, subject to the preemptive rights for shareholders to subscribe for new shares in exchange for cash payment, or payment through set-off of claims against the Company, the following applies with respect to the right to participate in the issue for shares that were issued as a consequence of Subscription pursuant to the exercise of a Warrant:

- 7.3.1 In the event the Board of Directors resolves to carry out a share issue subject to approval of the AGM or pursuant to authorization of the AGM, the resolution of the share issue must set forth the last date on which shares issued pursuant to Subscription entitle the Holders to participate in the share issue. This date is not permitted to occur earlier than the tenth calendar day after the resolution.

7.3.2 In the event the general meeting of shareholders resolves to carry out the share issue, Subscription is effected, where application for Subscription is made at such time that it cannot be effected on or before the tenth calendar day prior to the general meeting of shareholders that resolves to carry out the share issue, after adjustment by the Company in accordance with this Point 7.3. Shares which are issued based upon such Subscriptions are recorded on an interim basis in the control account which means that the Holders of such shares are not entitled to participate in the issue.

In connection with Subscriptions which are effected at such time that no right to participate in the issue of new shares arises, an adjusted Subscription Price and an adjusted number of shares that each Warrant entitles the Holder to subscribe for is applied. The adjustments are made in accordance with the following formulas:

$$\text{Adjusted Subscription Price} = \frac{\text{Previous Subscription Price} \times \text{average market price of the share during the subscription period set forth in the resolution approving the issue (average share price)}}{\text{Average share price increased by the theoretical value of the subscription right calculated on the basis thereof}}$$

$$\text{Adjusted number of shares that each Warrant entitles the Holder to subscribe for} = \frac{\text{Previous number of shares which each Warrant entitles the Holder to subscribe for} \times (\text{average share price increased by the theoretical value of the subscription right calculated on the basis thereof})}{\text{Average share price}}$$

The average share price is equivalent to the average of the mean of the highest and lowest prices paid for the share for each trading day during the subscription period if the share has a Market Listing. If neither a price paid nor an offer price is quoted on a given day, that day is excluded from the calculation.

The theoretical value of the subscription right is calculated in accordance with the following formula:

$$\text{Value of the subscription right} = \frac{\text{Maximum number of new shares that may be issued according to the resolution approving the issue} \times (\text{average share price reduced by the Subscription Price for the new share})}{\text{Number of shares prior to the resolution approving the issue}}$$

In the event a negative value is arrived at, the theoretical value of the subscription right is deemed to be zero.

The adjusted Subscription Price and adjusted number of shares calculated as set forth above is determined by the Company two Banking Days subsequent to the expiration of the subscription period and applies to Subscriptions executed after such time.

If the Company's shares do not have a Market Listing, the adjusted Subscription Price and adjusted number of shares is determined in accordance with the principles specified in this point in respect of an independent value appointed by the Company.

During the period prior to the determination of the adjusted Subscription Price and the adjusted number of shares, Subscription is only effected on a preliminary basis, whereupon the number of shares that each Warrant entitled the Holder to subscribe for prior to adjustment is recorded on the control account on an interim basis. In addition, a separate note is made that each Warrant, after adjustment, may entitle the Holder to subscribe for additional shares. Final registration in the control account is effected following final adjustment.

7.4 **New Issue in accordance with the Swedish Companies Act, Chapters 14 or 15**

In the event the Company carries out a new issue in accordance with the Swedish Companies Act, Chapters 14 and 15 that is subject to pre-emption rights for shareholders and for payment in cash or for payment through set-off of claims against the Company, the provisions contained in Point 7.3, in respect of the right to participate in new share issues as a result of Subscription pursuant to the exercise of a Warrant, are to apply correspondingly.

In connection with Subscriptions for shares effected at such time that no right to participate in the share issue arises, an adjusted Subscription Price and an adjusted number of shares that each Warrant entitles the Holder to subscribe for is applied. The adjustments are made by the Company in accordance with the following formulas:

$$\text{Adjusted Subscription Price} = \frac{\text{Previous Subscription Price} \times \text{average market price of the share during the subscription period specified in the resolution approving the issue (average share price)}}{\text{Average share price increased by the value of the subscription right}}$$

$$\text{Adjusted number of shares which the Warrant entitles the Holder to subscribe for} = \frac{\text{Previous number of shares which each Warrant entitled the Holder to subscribe for} \times \text{(the average share price increased by the value of the subscription right)}}{\text{Average share price}}$$

The average share price is calculated as specified in Point 7.3 above.

The value of a subscription right is deemed to be equal to the average mean of the highest and lowest prices paid for such rights each trading day during the subscription period in the case of a Market Listing. In the absence of a quotation of price paid, the last offer price quoted as the closing price for such date is used in the calculation. If neither a price paid nor a bid price is quoted on a given day, that day is excluded from the calculation.

The adjusted Subscription Price and adjusted number of shares set forth above is determined by the Company two Banking Days following expiration of the subscription period and is applied to Subscriptions executed thereafter.

If the Company's shares do not have a Market Listing, the adjusted Subscription Price and adjusted number of shares is determined in accordance with the principles specified in this point in respect of an independent valuer appointed by the Company.

Where Subscriptions are executed during the period prior to determination of the adjusted Subscription Price and adjusted number of shares, the provisions set forth in Point 7.3 above, apply correspondingly.

7.5 **Offer to shareholders**

In the event the Company, under other circumstances than those set forth in Points 7.1-7.4 above, directs an offer to shareholders based on pre-emptive

rights in accordance with the principles set forth in the Swedish Companies Act, Chapter 13, section 1, to purchase securities or rights of any sort from the Company, or where the Company resolves, in accordance with the aforementioned provisions, to distribute such securities or rights without consideration (Offer), an adjusted Subscription Price and an adjusted number of shares that each Warrant entitles the Holder to subscribe for is applied in connection with Subscriptions effected at such time that the shares subscribed as a consequence thereof do not entitle the Holder to participate in the Offer. Adjustments should be performed in accordance with the following formulas:

$$\text{Adjusted subscription price} = \frac{\text{Previous Subscription Price} \times \text{average market price of the share during the application period specified in the Offer (average share price)}}{\text{Average share price increased by the value of right to participation in the Offer (value of the right to purchase)}}$$

$$\text{Adjusted number of shares which each Warrant entitles the Holder to subscribe for} = \frac{\text{Previous number of shares which each Warrant entitles the Holder to subscribe for} \times (\text{average share price increased by the value of the purchase right})}{\text{Average share price}}$$

The average share price is calculated in accordance with the provisions set forth in Point 7.3 above.

In the event the shareholders have received purchase rights and trading of such rights has taken place, the value of the right to participate in the Offer is deemed to be equal to the value of the purchase right. In such context, the value of the purchase right is deemed to be the average mean of the highest and lowest prices paid each trading day during the application period in transactions if the share has a Market Listing. In the absence of a quotation of price paid, the last bid price quoted as the closing price for such date is used in the calculation instead. If neither a price paid nor a bid price is quoted on a given day, that day is excluded from the calculation.

In the event the shareholders have not received purchase rights or such trading in purchase rights as referred to in the preceding paragraph has otherwise not taken place, an adjustment of the Subscription Price and the number of shares is calculated with application, to the extent possible, of the principles set forth above in Point 7.5, whereupon the following shall apply. Where a listing is carried out in respect of the securities or rights that are offered to the shareholders, the value of the right to participate in the Offer is deemed to be the average of the prices paid on each trading day during 25 trading days from and including the first day of listing calculated as the average mean of the highest and lowest prices paid in these securities or rights on the market, where applicable, reduced by any consideration that has been paid for these in connection with the Offer. . In the absence of a quotation of price paid, the last bid price quoted as the closing price is used in the calculation instead. If neither a price paid nor a bid price is quoted on a given day, that day is excluded from the calculation of the value of the right to participate in the Offer. When adjustment of the Subscription Price and number of shares is made according to this paragraph, the aforementioned period of 25 trading days is deemed to correspond to the application period determined according to the first paragraph above in this Point 7.5.

In the event such listing of the securities and rights offered to the shareholders should not occur, the value of the right to participate in the Offer is, as far as possible, determined based upon the change in the market price of the Company's shares that is deemed to have arisen as a consequence of the Offer.

The adjusted Subscription Price and adjusted number of shares in accordance with the above is determined by the Company as soon as possible after the value of the right to participate in the Offer has been determined and is applied to Subscriptions effected after such determination has been made.

If the Company's shares do not have a Market Listing, the adjusted Subscription Price and adjusted number of shares is determined in accordance with the principles specified in this point in respect of an independent valuer appointed by the Company.

For Subscription effected during the period prior to determination of the adjusted Subscription Price and adjusted number of shares, the provisions in Point 7.3 last paragraph above apply correspondingly.

7.6 Pre-emptive rights for Holders in respect of new share issues according to the Swedish Companies Act, Chapter 13 or share issues according to the Swedish Companies Act, Chapters 14 or 15

In the event the Company carries out a new share issue with pre-emptive rights for shareholders against a cash consideration or through set-off claims against the Company according to the Swedish Companies Act, Chapter 13 or a share issue according to the Swedish Companies Act, Chapters 14 or 15, the Company is entitled to grant all Holders the same pre-emptive rights that vest to the shareholders according to the resolution. In this connection, each Holder, thus irrespective of whether Subscription has been effected, is deemed the owner of the number of shares that the Holder would have received, if Subscription had been effected at the Subscription Price applicable at the time of the resolution to carry out the share issue.

In the event the Company resolves to direct an Offer to the shareholders such

as specified in Point 7.5 above, the provisions of the preceding paragraph apply correspondingly. However, in such circumstances, the number of shares of which each Holder is deemed to be the owner of is determined at the Subscription Price applicable at the time of the resolution to carry out the share issue.

In the event the Company resolves to grant the Holders pre-emptive rights in accordance with the provisions set forth in this Point 7.6, no adjustment is made, as set out in Points 7.3, 7.4 or 7.5 above, of the Subscription Price and the number of shares that accrue to each Warrant.

7.7 Cash dividend

In the event it is decided to pay a cash dividend to shareholders such that the shareholders receive, combined with other dividends paid during the same fiscal year, a total dividend exceeding 15% of the average price of the share during a period of 25 trading days immediately preceding the day on which the Company's Board of Directors announces its intention to propose that the general meeting of shareholders approve such a dividend, an adjusted Subscription Price and an adjusted number of shares which each Warrant entitles the Holder to subscribe is applied for Subscriptions requested at such time where the shares received in such event do not carry rights to receive such dividend. The adjustments are based upon such part of the total dividend that exceeds 15% of the average price of the shares during the above period (extraordinary dividend).

Adjustments are performed by the Company in accordance with the following formulas:

Adjusted Subscription Price =	$\frac{\text{Previous Subscription Price} \times \text{the average market price of the share during a period of 25 trading days calculated from and including the day the share is listed ex-rights to the extraordinary dividend (average share price)}}{\text{Average share price increased by the extraordinary dividend paid per share}}$
Adjusted number of shares which each Warrant entitles the Holder to subscribe for =	$\frac{\text{Previous number of shares which each Warrant entitles the Holder to subscribe for} \times \text{(the average share price increased by the extraordinary dividend paid per share)}}{\text{Average share price}}$

The average price of the share is deemed to correspond to the average of the mean of the highest and lowest prices paid each trading day during the above stated period of 25 trading days if the share has a Market Listing. In the absence of a quotation of price paid, the last bid price quoted as the closing price is used in the calculation instead. If neither a price paid nor a bid price is quoted on a given day, that day is excluded from the calculation.

The adjusted Subscription Price and number of shares calculated in accordance with the above is determined by the Company two Banking Days after the expiration of such period of 25 trading days calculated from the date on which the shares are listed ex-rights to the extraordinary dividend and applies to Subscriptions effected after such time.

In the event the Company's shares do not have a Market Listing and a cash dividend to shareholders is resolved such that the shareholders receive, combined with other dividends paid during the same fiscal year, a total dividend exceeding 100% of the Company's after-tax profits and 15% of the Company's value, an adjusted Subscription Price and an adjusted number of shares which each Warrant entitles the Holder to subscribe is applied for Subscriptions requested at such time that the shares received in such event do not carry rights to receive such dividend. The adjustments are based upon such part of the total dividend that exceeds 100% of the Company's after-tax profits for the fiscal year and 15% of the Company's value and is determined in accordance with the principles specified in this point in respect of an independent valuer appointed by the Company.

Where Subscriptions are executed during the period prior to determination of the adjusted Subscription Price and adjusted number of shares, the provisions set forth in Point 7.3, last paragraph above, apply correspondingly.

7.8 Reduction in share capital through repayment to shareholders

In the event the Company's share capital is reduced through repayment to shareholders, and the reduction is compulsory, an adjusted Subscription Price and an adjusted number of shares which each Warrant entitles the Holder to subscribe for is applied. Adjustment is performed by the Company in accordance with the following formulas:

$$\text{Adjusted Subscription Price} = \frac{\text{Previous Subscription Price} \times \text{average market price of the shares during a period of 25 trading days calculated from and including the day on which the share was listed without any right to participate in the distribution (average share price)}}{\text{Average share price increased by the amount repaid for each share}}$$

$$\text{Adjusted number of shares which each Warrant entitles the Holder to subscribe for} = \frac{\text{Previous number of shares which each Warrant entitles the Holder to subscribe for} \times (\text{average share price increased by the amount repaid for each share})}{\text{Average share price}}$$

The average share price is calculated in accordance with the provisions set forth in Point 7.3 above.

In carrying out the adjustments according to the above, in which the reduction is carried out through a redemption of shares, instead of using the actual amount which is repaid for each share, an amount calculated as follows is applied:

$$\text{Calculated amount per share} = \frac{\text{The actual amount repaid for each redeemed share reduced by the average market price of the share during a period of 25 trading days immediately prior to the day on which the share is listed without any right to participate in the reduction (average share price)}}{\text{The number of shares of the Company that entitles to the redemption of one share, reduced by 1}}$$

The average share price is calculated in accordance with the provisions set forth

in Point 7.3.1 above.

The adjusted Subscription Price and adjusted number of shares pursuant to the above is determined by the Company two Banking Days after the expiration of the above-stated period of 25 trading days, and applies to Subscriptions effected after such time.

For Subscription effected during the period prior to determination of the adjusted Subscription Price and adjusted number of shares, the provisions in Point 7.3 last paragraph above apply correspondingly.

In the event the Company's share capital is reduced through redemption of shares with repayment to the shareholders, in which such reduction is not compulsory, but where, in the Company's opinion, the measure due to its technical structure and financial effects, is equivalent to a compulsory reduction, the adjustments of the Subscription Price and the number of shares are performed in accordance with, to the extent possible, the principles stated above in this Point 7.8.

If the Company's shares do not have a Market Listing, the adjusted Subscription Price and adjusted number of shares is determined in accordance with the principles specified in this point in respect of an independent valuer appointed by the Company.

In the event the Company carries out measures set forth in Points 7.1-7.5, 7.8 or 7.9 and if the application of the intended adjustment formula, according to the Company's opinion, with regard to the technical structure or for another reason, may not be possible or result in the economic compensation the Holders receive becoming unreasonable in relation to the shareholders, the Board of Directors of the Company makes the adjustments of the Subscription Price and the number of shares for the purpose of the adjustments leading to a reasonable result, however, such adjustment is not permitted to be detrimental for the Holder. In conjunction with adjustments in accordance with the above, the Subscription Price is rounded off to the nearest SEK 0.10, whereupon SEK 0.05 is rounded up and the number of shares rounded off to two decimal places.

7.9 **Liquidation**

In the event it is resolved to place the Company in liquidation according to the Swedish Companies Act, Chapter 25, regardless of the grounds for liquidation, applications for Subscription may not thereafter be made. The right to make applications for Subscription terminates in conjunction with the resolution to place the Company in liquidation regardless of whether such resolution has entered into effect.

Not later than two months prior to a resolution by the general meeting of shareholders as to whether the Company should be placed into voluntary liquidation according to the Swedish Companies Act, Chapter 25, section 1, notice is given to Holders in accordance with Point 8 below in respect of the intended liquidation. The notice must state that applications for Subscription may not be made following the adoption of a resolution by the general meeting of shareholders to place the Company in liquidation.

In the event the Company gives notice of an intended liquidation in accordance with the above, each Holder – irrespective of what is set forth in Point 3 above regarding the earliest time at which applications for Subscription may be made – is entitled to apply for Subscription from the day on which notice is given,

provided it is possible to effect Subscription not later than the tenth calendar day prior to the general meeting of shareholders at which the issue of the Company's liquidation will be addressed.

7.10 Merger plans in accordance with the Swedish Companies Act, Chapter 23, section 15

In the event the general meeting of shareholders adopts a merger plan, in accordance with the Swedish Companies Act, Chapter 23, section 15, pursuant to which the Company is to be merged into another company, applications for Subscription may not thereafter be made.

Not later than two months prior to a final determination by the Company in respect of the merger as set forth above, notice is given to Holders in accordance with Point 8 below in respect of the intended merger. The notice must set forth the principal contents of the intended merger plan and each Holder must be notified that Subscription may not be made following a final decision regarding the merger in accordance with the provisions set forth in the preceding paragraph.

In the event the Company gives notice of an intended merger in accordance with the above, each Holder – irrespective of what is set forth in Point 3 above regarding the earliest time at which applications for Subscription may be made – is entitled to apply for Subscription from the day on which notice is given of the intended merger, provided it is possible to effect Subscription not later than the tenth calendar day prior to the general meeting of shareholders at which the issue of the intended merger through which the Company is to be merged into another company will be addressed.

7.11 Merger plans in accordance with the Swedish Companies Act, Chapter 23, section 28

In the event the Company's Board of Directors prepares a merger plan in accordance with the Swedish Companies Act, Chapter 23, section 28, through which the Company merges into another company or if the Company's shares become subject to compulsory redemption pursuant to Chapter 22, the following applies.

Where a Swedish company owns all shares outstanding in the Company, and where the Board of Directors publishes its intention to prepare a merger plan in accordance with the legislation referred to in the preceding paragraph, the Company must, provided that the final day for application for Subscription pursuant to Point 3 above occurs after such publication, determine a new final day for application for Subscription (Expiration Date). The Expiration Date must fall within 60 days of the date such an intention transpired, or, if publication of such an intent has been performed, the date of its publication.

If one shareholder (the Majority Shareholder) alone or together with subsidiaries owns shares representing such a large proportion of the shares outstanding in the Company that the Majority Shareholder, in accordance with applicable legislation at the time, holds the right to demand the compulsory redemption of the remaining shares, and if the Majority Shareholder should publish this intent regarding compulsory redemption, the provisions stated in the preceding paragraph regarding Expiration Date apply.

Subsequent to the determination of the Expiration Date, the Holders, irrespective of what is set forth in Point 3 above regarding the earliest time at which applications for Subscription may be made, are entitled to apply for Subscription

up to and including the Expiration Date. Not later than four weeks prior to the Expiration Date, the Company must notify the Holders in writing in respect of such right and that applications for Subscription may not be made after the Expiration Date.

7.12 Division plan pursuant to the Swedish Companies Act Chapter 24, section 17

Where the general meeting adopts a resolution to approve a division plan pursuant to the Swedish Companies Act Chapter 24, section 17, pursuant to which the Company will be divided through all the assets and liabilities of the Company being taken over by one or more other companies, applications for Subscription may not be made thereafter.

Not later than two months prior to a final determination by the Company in respect of the division plan as set forth above, notice is given in writing to Holders in respect of the intended division. The notice must set forth the principal contents of the intended division plan and each Holder must be notified that Subscription may not be made following a final decision regarding the division or adoption of the division plan by the shareholders.

In the event the Company gives notice of an intended division in accordance with the above, each Holder – irrespective of what is set forth in Point 3 above regarding the earliest time at which applications for Subscription may be made – is entitled to apply for Subscription from the day on which notice is given of the intended division, provided it is possible to effect Subscription not later than the tenth calendar day prior to the general meeting of shareholders at which the issue of the intended division will be addressed or the day on which shareholders adopt the division plan.

7.13 Notwithstanding the provisions set forth in Points 7.9-7.12 above that applications for Subscription may not be made following the adoption of a resolution to place the Company in liquidation, the approval of a merger plan, or the expiry of a new expiration date in conjunction with a merger or the adoption of a division plan, the right of application for Subscription is reinstated in the event that liquidation plans are terminated, and merger or division plans not implemented.

7.14 Bankruptcy

In the event the Company is placed in insolvent liquidation, applications for Subscription may not thereafter be made. In the event, however, the decision to place the Company in insolvent liquidation is revoked by a court of higher instance, applications for Subscription may be made.

8. SEPARATE UNDERTAKING BY THE COMPANY

The Company undertakes not to take any measures set forth in Point 7 above that would result in an adjustment of the Subscription Price to an amount less than the prevailing quotient value of the share at any given time.

9. NOTICES

Notices regarding the terms and conditions of these Warrants will be provided to each registered Holder and other holders of rights that are registered on an account in the Company's control register.

10. AMENDMENTS OF TERMS AND CONDITIONS

The Company is entitled to amend the terms and conditions of these Warrants to the extent it is required by legislation, court decisions or decisions of authorities, or if there under other circumstances – according to the Company's opinion – are practical reasons that are appropriate or necessary and the Holders' rights are not materially deteriorated.

11. CONFIDENTIALITY

Unless so authorized, the Company and Euroclear may not provide information on Holders to third parties.

The Company is entitled to the following information from Euroclear about the Holder's account in the control register of the Company:

- (a) the Holder's name, personal identity number or other identity number and address, and
- (b) the number of Warrants.

12. FORCE MAJEURE

With respect to the actions incumbent on the Company and/or Euroclear under these conditions, the Company and/or Euroclear is not deemed liable for loss due to Swedish or foreign legal decrees, the actions of Swedish or foreign authorities, acts of war, strikes, blockades, boycotts, lockouts or other similar circumstances. The reservations with respect to strikes, blockades, boycotts and lockouts apply even if the Company itself undertakes, or is the object of, such actions.

The Company and/or Euroclear is/are not obligated to provide compensation for loss arising in other situations if the Company has exercised normal prudence. The Company and/or Euroclear are not in any case liable for indirect damages.

In the event the Company and/or Euroclear is hindered from taking action in accordance with these conditions by circumstances such as those described in the first paragraph of this Point 12, such action may be deferred until the hindrance has ceased to exist.

13. APPLICABLE LAW AND JURISDICTION

These terms and conditions and any related legal matters are governed by Swedish law. Any disputes relating to the terms and conditions will be determined in the first instance in the District Court of Stockholm (Sw: Stockholms tingsrätt) or in such other court whose competence the Company has accepted in writing.
