## January 1 - March 31

- Net sales amounted to SEK 737.9 M (570.0) up 29.5 percent. Pro forma net sales totaled SEK 666.0 M for the first quarter of 2015, corresponding to a pro forma net sales increase of 10.8 percent.
- Net sales for comparable stores increased 5.3 percent (increased 12.0).
- The gross margin was 31.2 percent (32.2).
- EBITDA amounted to a negative SEK 24.2 M (positive 3.0). Pro forma EBITDA was a negative SEK 17.2 M for the first quarter of 2015.
- The EBITDA margin was a negative 3.3 percent (positive 0.5). The pro forma EBITDA margin amounted to a negative SEK 2.6 M for the first quarter of 2015.
- The loss after tax was SEK 58.2 M (loss 16.9) Mkr.
- Earnings per share totaled SEK -1.0 (-0.3).

## Significant events during January - March

- Six (one) new stores were opened, which included one Byggmax store in Sweden and five Skånska Byggvaror stores in Sweden.
- A total of five stores were converted to the Byggmax 2.0 concept during the quarter.
- On January 4, 2016, Byggmax completed the acquisition of Skånska Byggvaror Group AB. Byggmax acquired Skånska Byggvaror for a total of SEK 936 M, and an earnout payment of SEK 110 M if EBITDA exceeds SEK 67 M in 2016, with a maximum payout if EBITDA amounts to SEK 79 M or higher. The acquisition is being financed by loans. In connection with this transaction, Anders Johansson Eickhoff, President of Skånska Byggvaror, became a member of Byggmax Group's Group management.
- The Board of Directors has set new financial targets for Byggmax. These new financial targets mean that Byggmax net sales is to grow 15 percent per year over time, inclusive of acquisitions, and has to maintain an EBITDA margin of not less than 9 percent. The dividend should be at least 50 percent of net profit.

# PRESIDENT'S COMMENTS ON RESULTS

#### Sales increased during the first quarter

Total sales increased 30 percent year-on-year, and growth in comparable units was 5.3 percent. Pro forma sales increased 11 percent. The weakest month for the quarter was March. Sales through the online store increased 45.0 percent, and sales in stores that had converted to Byggmax 2.0 had a positive impact. The sales trend was favorable in all countries, but the strongest increase in sales for comparable units was in Sweden.

Overheads increased during the quarter, mainly due to the increase in the number of stores over the year and the investments Byggmax has made in e-commerce and the sale of services. Overheads also increased as a result of the acquisition of Buildor and Skånska Byggvaror.

In connection with the acquisition of Skånska Byggvaror, the Byggmax Group has decided to amortize customer relationships and brands relating to the acquisition of Skånska Byggvaror. This had already been the practice at Skånska Byggvaror, and current amortization levels are a result of the acquisition and the updated acquisition analysis.

#### Gross margin and price changes for products and input goods

The gross margin for the quarter was 1.0 percent lower year-onyear, and 1.1 percent lower than the pro forma figure for the first quarter of 2015. Compared with last year, the gross margin in Norway declined due to exchange-rate effects. In addition, we are selling more online goods with a lower gross margin than the in-store product range. The price of input goods has increased year-on-year, mainly due to exchange-rate fluctuations. Retail prices have remained largely unchanged, with certain variations in each country.

#### Market

The Swedish building supplies market grew 8.3% during the first two months of the year. The Norwegian market increased 1.3% and the Finnish market posted growth of 0.5% during the same period. The reduction in the ROT (Repairs, Conversion and Extension) deduction in Sweden has not yet had any major impact on the market. The Norwegian market trended more weakly than in 2015 due to the low oil price and the Norwegian economy's dependence on oil.

#### **Strategic business decisions**

Six new stores opened during the quarter - one Byggmax store and five Skånska Byggvaror stores. The goal for 2016 is to open 10-15 Byggmax stores and five Skånska Byggvaror stores. There is a risk that a heated property market will make it difficult for us to achieve 10-15 Byggmax stores at reasonable rental prices.

#### **New financial targets**

The Board of Directors has set new financial targets for Byggmax. These new financial targets mean that Byggmax net sales is to grow 15 percent per year over time, inclusive of acquisitions, and has to maintain an EBITDA margin of not less than 9 percent. The dividend should be not less than 50 percent of net profit. The company's ambition, which is not a financial target, is to reach net sales of SEK 10 billion with an EBITDA margin of 10% in 2020. The financial targets were updated as a result of the acquisitions completed by Byggmax and as a consequence of the substantial expansion of e-commerce. These business activities have a lower level of profitability than Byggmax's other activities.

#### Byggmax upgrades store concept and increases store product range - Byggmax 2.0

Byggmax 2.0 stores continue to deliver promising sales increases and improved gross margins following conversion. A total of five stores were converted during the quarter. Up until the start of the 2016 season, that is before May 2016, the aim is to convert all remaining stores into 2.0 stores.

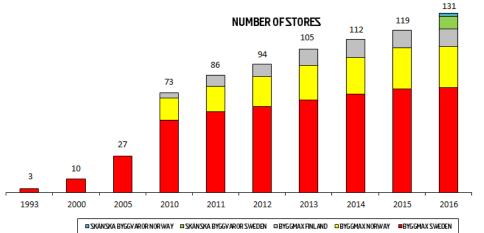

## Sustainability at Byggmax

Sustainability is important for Byggmax and impacts our decisions. As part of efforts to preserve the environment, in particular from CO2 emissions, Byggmax has decided to open a new distribution center in Gävle. The new distribution center in Gävle is about to be launched, and the plan is to begin deliveries from it in the second quarter. Our goal is to reduce carbon dioxide emissions with 25 percent over the period of 2009 to 2020.

#### Outlook

The market trend is positive in Sweden, and the market is stronger than it has been for a long time. The markets in Norway and Finland are growing weakly. In the Finnish market, uncertainty continues regarding economic developments. Even Norway is showing a degree of uncertainty due to the low oil price. Our continued capture of market shares in our categories confirms the strength of the concepts in the Byggmax Group. With our low prices and considerable cost awareness, we remain on the side of the customer.

In 2016, Byggmax opened six new stores in Sweden: one Byggmax store and five Skånska Byggvaror stores. Following the acquistion, Skånska Byggvaror's existing stores are also included in the diagram for 2016. The image above shows how the store network has expanded since Byggmax was founded in 1993.

# CONSOLIDATED SALES AND EARNINGS

## January 1 - March 31

#### Revenues

The operation's net sales totaled SEK 737.9 M (570.0), up 29.5 percent. Operating revenue was SEK 739.7 M (570.9), up 29.6 percent. Net sales for comparable stores increased 5.3 percent in local currency. Operating income at Byggmax amounted to SEK 615.2 M (569.6), to SEK 101.7 M at Skånska Byggvaror and to SEK 22.9 M (1.3) at other. The increase in sales was influenced positively by the acquisitions. Sales on the website increased 45 percent year-on-year and sales in stores that had converted to Byggmax 2.0 impacted positively. The weakest sales month of the guarter was March.

| The sales increase of 29.5 percent was divided according the following: | ng to |
|---|-------|
| Comparable stores <sup>1</sup> , local currency, percent                | 5.3   |
| Non-comparable units and other, percent                                 | 26.1  |
| Exchange-rate effects, percent  | -2.0  |
| Summa, procent  | 29,5  |

The Group opened six (one) stores during the quarter: one Byggmax store in Sweden and five Skånska Byggvaror stores in Sweden. The total number of stores in the Group as of March 31, 2016 thereby amounted to 131 (113).

#### **EBIT**

EBIT amounted to SEK -57.8 (-16.1) M, corresponding to an EBIT margin of -7.8 percent (-2.8). The gross margin was 31.2 procent compared with 32.2 percent in the year-earlier period. Compared with last year, the gross margin in Norway declined due to exchange-rate effects. In addition, we are selling more online goods with a lower gross margin than the in-store product range.

Personnel costs and other external expenses increased a total of SEK 74.6 M. The increase in expenses compared with the year-earlier period was mainly attributable to costs linked to the acquired companies amounting to SEK 59.8 M.

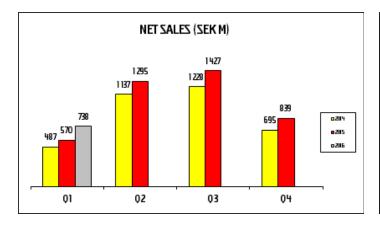

Personnel and other external expenses compared with the pro forma first quarter of 2015 increased SEK 22.9 M. The increase in expenses compared with the pro forma year-earlier period was mainly attributable to costs associated with new stores opened after the first quarter of 2015, amounting to SEK 13.6 M. The increase in costs during the quarter, other than for new stores, was attributable to expenses associated with the investments being made.

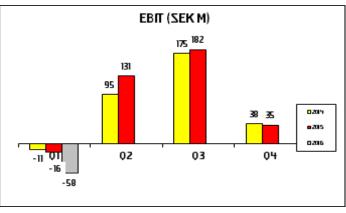

#### Profit before tax

Profit before tax amounted to SEK -74.5 M (-22.0). Net financial items amounted to a cost of SEK 16.8 M (cost 5.9). Net financial items for the quarter were negatively impacted by exchange-rate effects of SEK 4.4 M (negative 3.7) and increased borrowing as a result of the acquisitions. Earnings were also impacted by a nonrecurring cost of SEK 3.9 M linked to the acquisition of Skånska Byggvaror Group AB.

#### **Taxes**

Tax revenues for the first quarter of 2016 totaled SEK 16.3 M (5.2).

A comparable unit is considered comparable from the beginning of the second year following the opening of the online or physical store. Stores that are relocated to new premises in existing locations are treated in the same manner. Comparable stores includes two Skånska Byggvaror stores.

# REPORT ON THE BUSINESS SEGMENT

Skånska Byggvaror AB was acquired by Byggmax on January 4, 2016. Due to the acquisition, the internal follow-up will include separate financial information for each brand, which is why segment information from the first quarter of 2016 will be presented for three segments.

These three segments are Byggmax, Skånska Byggvaror and Other. Other includes Buildor, intra-Group leasing of owned properties, a distribution company and the Parent Company Byggmax Group AB. No individual part of the Other segment represents such a material part that it forms a reportable segment, which is why we have chosen to aggregate them. The performance metric we use internally to follow-up and evaluate operations is EBIT before depreciation/amortization and impairment of tangible and intangible fixed assets (EBITDA). In 2015, operations were only followed up based on one reportable segment, Byggmax, which was included for the comparative period in accordance with the presentation format that will be used in 2016. For more information see note 4.

#### **Byggmax**

The Byggmax segment includes Byggmax AB and the subsidiaries Byggmax Norge and Byggmax AB Finland. Operating income increased 8.0 percent during the first quarter to SEK 615.2 M (569.6). EBIT during the first quarter amounted to a negative SEK 42.1 M (negative 35.2). The fall in earnings can be partially explained by a lower gross margin in Norway due to exchange-rate effects. In addition, we are selling more online goods with a lower gross margin than the in-store product range. Earnings were also impacted by costs for stores opened after the first quarter of 2015 that amounted to SEK 8.8 M. The EBIT margin during the quarter was a negative 6.8 (neg: 6.2) percent.

#### Skånska Byggvaror

Operating income increased 18.5 percent during the first quarter to SEK 101.7 M. EBIT during the first quarter amounted to a negative SEK 22.2 M. Earnings were also impacted by costs linked to stores opened after the first quarter of 2015 amounting to SEK 4.8 M. The EBIT margin during the quarter was a negative 21.8 percent.

# CASH FLOW AND FINANCIAL POSITION

#### Cash flow and financial position

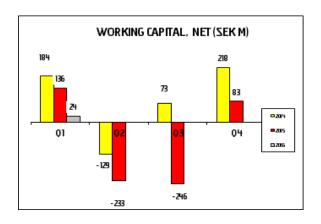

Cash flow from operating activities for the period January to March amounted to SEK-83.3 M (90.1), down SEK 173.4 M year-on-year. Cash flow for the first quarter of 2015 was impacted by calendar effects linked to supplier payments. Inventory totaled SEK 839.3 M (701.7), up SEK 137.6 M. An inventory value of SEK 103.7 was added in conjunction with the acquisition of Skånska Byggvaror. Compared with the end of the year-earlier period, six new Byggmax stores were added and the associated inventory amounted to SEK 28.3 M. Distribution inventory was SEK 18.1 M higher year-on-year.

At March 31, 2016, consolidated shareholders' equity amounted to SEK 1,087.2 M (1,031.4). Consolidated net debt was a negative SEK 1,335.0 M (neg: 413.3), up SEK 941.7 M year-on-year. The higher net debt can be explained by the acquisition of Skånska Byggvaror, which has been financed via a bank loan with Svenska Handelsbanken. The equity/assets ratio amounted to 29.5 percent (46.2). Unutilized credits totaled SEK 219.2 M (105.5).

Investments during the first quarter amounted to SEK 60.4 M (51.8). Of these investments, SEK 18.3 M (3.2) pertained to investments in stores opened or stores to be opened during 2016 and SEK 6.0 M (3.7) IT investments. Investments relating to the conversion of stores to the Byggmax 2.0 concept totaled SEK 24.0 M (24.5) for the first quarter.

During 2012-2013, in two principal cases, Swedish Customs decided to levy Byggmax for additional VAT charges, customs sanction fees, customs and anti-dumping duties. Byggmax and its subsidiaries have appealed these decisions and the subsequent judgements with different legal instances. Swedish Customs has, in turn, appealed against a judgement made by the Administrative Court. The current status of the cases is that the 2012 case was remanded to the Administrative Court for reconsideration, where it was decided to reject Byggmax's appeal. The Supreme Administrative Court decided against providing leave to appeal for the cases from 2013, which had been sent there for appeal by Byggmax's subsidiaries. For further historical information on these cases, please refer to the 2015 Annual Report and previous years.

In parallel with these processes, Byggmax has agreed on future compensation in a corresponding amount with the supplier that sold the products in question and on which general customs and anti-dumping duties were payable. Byggmax paid a total of SEK 23.2 M in customs and anti-dumping duties to Swedish Customs, while outstanding supplier receivables amount to SEK 18.4 M.

#### **Acquisition of subsidiary**

On January 4, 2016, Skånska Byggvaror Group AB (Corp. Reg. No. 556987-6849) was acquired with the aim of strengthening Byggmax's online store offering. Skånska Byggvaror AB is a fast-growing e-commerce player with operations in Sweden, Norway and Denmark. The acquisition includes 100% of the shares in Skånska Byggvaror Group AB and has had the following effects on the consolidated balance sheet and cash and cash equivalents. A possible earnout of SEK 110.0 M was recorded, if EBITDA exceeds SEK 67 M in 2016, with a maximum payout if EBITDA reaches SEK 79 M or more. The earnout for the acquisition is valued at fair value, meaning its full payout value and discounted based on future payment dates. As of March 31, 2016, the discounted earnout amounted to SEK 103.9 M.

Since the acquisition date, Skånska Byggvaror Group AB has contributed SEK 101.7 M in sales and a negative SEK 22.2 M in EBIT. Goodwill resulted from the acquisition, and consists of synergy effects. The effect of deferred tax was also taken into account when making this adjustment. Intangible assets in the form of customer relationships and the brand were identified in connection with the acquisition. Byggmax amortizes these assets, and the annual cost is estimated at SEK 39.6 M for amortizations and SEK 8.7 M for deferred tax. The acquisition analysis is subject to a final adjustment one year after the date of acquisition.

#### **New store openings**

Six new stores were opened during the period January to March 2016: one Byggmax store in Sweden and five Skånska Byggvaror stores in Sweden.

The following Byggmax stores have been publicly announced and will be opened in 2016: Eurostop Arlandastad, Köping, Mora, Trelleborg and Åmål in Sweden, Bergen Rådal and Bergen Midtun in Norway.

#### The Byggmax workforce

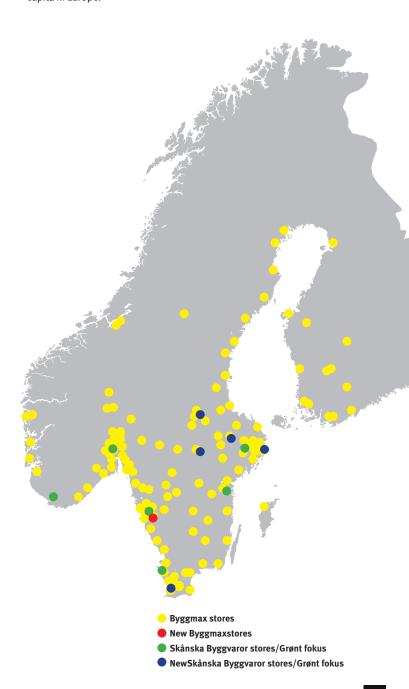

The number of employees, (converted into full-time equivalents) totaled 912 (644) at the end of the period. This increase in the number of employees can be explained by 184 employees at the acquired companies.

#### Events after the close of the reporting period

No significant events have occurred since the end of the reporting period.

#### MARKET - POTENTIAL FOR FURTHER GROWTH

The Byggmax Group conducts business in the Swedish, Norwegian, Finnish and Danish do-it-yourself market. The European do-it-yourself market's total turnover is approximately 112.8 billion euros (estimated do-it-yourself market size 2013) according Mintel1 and is expected to grow by about two percent per year over the next five years compared with an average annual growth 2009-2013 at 2.2 percent. The corresponding figures for the same period in Sweden, Norway, Finland and Denmark show an average annual growth that exceeds many other European countries since 2009, with Sweden having the highest growth number of 7.6%. Sweden, Norway, Finland and Denmark together account for nearly 6% of the European market, where Norway has the second highest do-it-yourself sales per capita in Europe.

# THE BYGGMAX GROUP

## Byggmax in brief

#### **Business concept**

Byggmax's business concept is to sell high-quality building supplies at the lowest price possible.

#### Business model and key factors for success

Byggmax offers affordable high-quality products for the most common maintenance and DIY projects. Since the start in 1993, the organization has been characterized by the so-called "Byggmax concept" which has been decisive for the company's development. The concept is built on a limited product range, resource-efficient administration, strong company culture and a competitive and effective pricing strategy, as well as the stores, distinguished shape and design.

#### Goals

Byggmax has determined its long term goals for the Group as follows:

- Nets sales to grow 15 percent per year over time, inclusive of acquisitions.
- To have an EBITDA margin of at least 9 percent a year.
- To distribute at least 50 percent of net profit.

#### **Strategies**

Byggmax's strategy for achieving its financial goals is to expand the chain of stores in existing markets, to improve operating activities and to maintain continuous focus on business development.

To reach the financial goals, Byggmax has defined the following

- Expand the retail network for Byggmax and Skånska Byggvaror
- Expand the online assortment
- Strengthen the brands in the group
- Continue to drive efficiency within the organization
- Improve the purchasing conditions of goods and services
- Develop the offer, e.g. what we have done by offering construction services for a fixed price

#### Byggmax organization

Byggmax has a resource-efficient organization with the majority of business activities managed centrally. Aside from the sales force, which is based in Byggmax stores, most business processes, including Byggmax's online sales, are managed functionwide across all stores by the head office in Solna, near Stockholm.

#### **Risks and uncertainties**

A number of factors can impact Byggmax's earnings and operations. Most of these factors can be managed through internal procedures, while certain factors are largely governed by external circumstances. For a more detailed description of the Group's risks and risk management, refer to the Annual Report.

Apart from the risks described in the Annual Report, no material risks arose during the period.

#### Seasonal fluctutations

The company's operations are affected by strong seasonal variations controlled by consumer demand for basic building supplies. Due to the weather's impact on demand, Byggmax's sales and cash flow are generally higher in the second and third quarters, when about two thirds of the company's sales are generated, while these usually decline in the fourth and first quarters. Although seasonal variations do not normally affect Byggmax's earnings and cash flow from year to year, earnings and cash flow may be impacted during the year by unusually harsh or mild weather conditions, or by excessive or insufficient precipitation. Byggmax endeavors to balance the seasonal effects by launching new products that are not as susceptible to seasonal variations.

#### About Buildor.se

Buildor.se has been a part of the Byggmax family since October 2015. Buildor.se was launched in 2013 with the goal of making it easier and more pleasant to shop for building supplies. Buildor offers a broad range of varied product categories at the market's most competitive prices for building supplies and interior fittings online. It is just as important for us to provide fast and personal customer service as it is to ensure our employees have the requisite expertise regarding the products' function and accessories to be able to help customers in the most effective way. Another equally important aspect is offering lightning-fast deliveries, which is something Buildor is known for.

## **About Skånska Byggvaror**

Skånska Byggvaror has been a part of the Byggmax family since January 2016. Skånska Byggvaror was founded in 1965 and is an expansive and profitable online Nordic distance retailer of value-added building products for the DIY market.

Skånska Byggvaror offers a carefully selected and affordable product range to DIY customers, mainly through its web platform. The business model is characterized by a high number of products under its own brand, control of the value chain from product development to home delivery and a high level of service regardless of sales channel. Skånska Byggvaror has 11 stores: nine in Sweden and two in Norway.

1 Previous financial targets were: • To achieve organic growth in excess of 15 percent of net sales per year by expanding the store network and increasing like-for-like sales. • To maintain an EBIT margin in relation to net sales of more than 11 percent.

#### Value drivers

Byggmax's ability to create value through its business is impacted in the long and short term by various external and internal factors. A selection of these are listed below.

#### **Value drivers – short-term factors**

- Trends in cost prices cost prices impact Byggmax's margins. Historically, the market has passed on adjustments in cost prices to the end consumer.
- Competitors' pricing Byggmax prices products based on the prices of the competition with the objective of always being the cheapest. Therefore, the pricing of competitors affects margins.
- Short-term trends in the DIY market Byggmax operates in the DIY market and, accordingly, its trends impact the company.
- Weather Byggmax sells many items for outdoor use and, accordingly, sales are impacted by the weather. Seasonal variations are clearly visible and the company has significantly higher turnover in spring, summer and early autumn.
- Availability of attractive store locations The establishment of new stores is a key element of Byggmax's strategy in both the long and the short-term, thus making attractive store locations of key importance.

#### Value drivers - long-term factors

- The ability to maintain the strong corporate culture The Byggmax culture plays a key role in the company's success and its retention is a key factor for continued success.
- •The ability to execute the Group's strategy and business concept - Maintaining stringency levels in the product range and pricing as well as continuing to trim the organization through continuous improvements comprise a few of the key elements for success.
- •The ability to renew the concept and strategies when needed - The Byggmax concept has remained much the same since it was founded in 1993. However, the concept has developed over time and new ideas have been tested and incorporated or discarded.
- Long-term development of the DIY market Byggmax operates in the DIY market and its long-term trend is important.

- Trends in the attractiveness of the low-price segment in the DIY market - Byggmax's strategy is to become the largest operator in the low-price segment in the Nordic region. Long-term trends are therefore important.
- The competition's strategies and their execution Byggmax operates in a competitive market and the actions of the competition affect the Group.

#### Note 2 Disclosures about transactions with related parties

No transactions occurred between Byggmax and related parties that could significantly impact the Company's position and results.

The 2013 and 2015 annual general meetings resolved to introduce warrants programs for senior executives and other key staff at Byggmax. The warrants were priced at market value, which was based on a valuation made by an independent party. Each warrant entitles its holder to subscribe for one share in the company at the exercise price shown in the table below. The participants of the warrants program have entered into a pre-emption agreement. The 2013 warrant program expires on November 11, 2017 and can be exercised from May 30, 2017. The 2015 warrant program expires on November 30, 2018 and can be exercised from May 30, 2018.

#### Note 5 Fair value disclosures pertaining to financial instruments

The fair value of financial liabilities and assets is estimated as equal to their carrying amounts. All external loans have an interest period of three months, meaning that the carrying amount closely corresponds to fair value.

#### **Note 6 Financial instruments**

Byggmax only holds derivative instruments measured at fair value in its financial statements. These instruments are measured at fair value in profit or loss. The value of the derivative instruments is based on observable data for the asset or liability, i.e. level 2. No reclassifications between the various levels took place during the period.

Byggmax is obliged to make the information in this interim report public in accordance with the Securities Market Act, the Financial Instruments Trading Act or rules established by the stock exchange. This information was sent for publication on April 19, 2016 at 8 a.m.
